Ora L. Glover Community Room, Anacostia Neighborhood Public Library
1800 Good Hope Road, SE, Washington, DC 20020

Happy New Year!

"Check It In" DC Public Library

Fine Forgiveness Campaign

Check in books, music CDs, DVDs, Playaways and books on CD until **February 5** in any condition, at any DC Public Library and your fines and fees will be forgiven!

The "Check It In" campaign is an effort to encourage DC Public Library cardholders who haven't used the library in a while because they have overdue, lost or damaged books or other library materials to return to the library. The DC Public Library will forgive all fines and fees on any overdue, lost and damaged item.

The DC Public Library wants to get back as many overdue materials as possible to benefit more District residents. The Library also wants to ensure it has the most up-to-date information for its cardholders, so this is an opportunity for you to update your customer record with your new email address, phone number or mailing address. Please plan to show valid identification when updating your account. –The DC Public Library, "Check it Out".

Public Meeting

Anacostia Streetcar Extension

The Federal Transit Administration and the District Department of Transportation (DDOT) are hosting the fourth public meeting for the Anacostia Streetcar Extension Environmental Assessment and Historic Preservation Study, on **Thursday, January 26, 2012, 6:30 pm – 8 pm, at Savoy Elementary School, 2400 Shannon Place, SE.**

The study team will provide an update on the status of the route alternatives that are being evaluated to create a transit connection between the Anacostia Metrorail Station and the 11th Street Bridge.

The remaining proposed route alternatives that were presented at the last public meeting held for this study have undergone further analysis based on overall study goals and objectives, community input and technical evaluation. DDOT is seeking public input on the remaining four alternatives to identify the preferred route alternative for this study.

The study team will also share information about: 1) the upcoming milestones that are planned for this study; 2) the opportunities that will be made available to review and comment on the Draft Environmental Document that will be prepared for this study; and 3) the next steps that will follow the conclusion of this study.

Update

11th Street Bridge Project

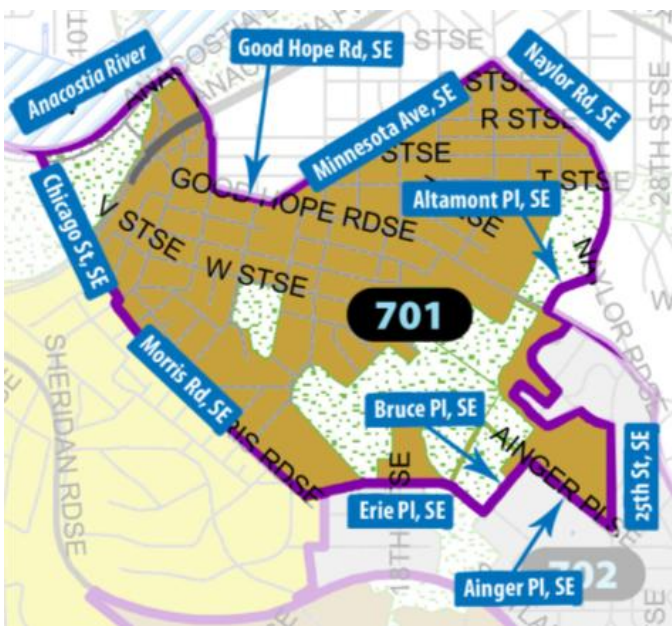

There have been several new ramps and two new bridge crossings but to date there has not been any new connections beyond what we had before the project began. The new connections are coming. We can see them forming. However, if you saw a recently released DDOT video, '11th Street Bridge Project Phasing', posted to YouTube, you might have noticed a obvious omission - there was nothing showing a connection to I-295/DC-295 from the local bridge, contrary to the approved plan and what we have always been told. The one-minute and 44 second video may be seen at: <http://tinyurl.com/11Bridge> It details the project's major elements and the estimated timeline for the completion of each milestone.

An inquiry made by Christopher Jerry, Vice President, Fairlawn Citizens Association, to DDOT was promptly responded to and we have been assured that there will be connections between the local bridge and I-295/DC-295.
